

FRANCINE MERIOT LMT

*I am a MA State Licensed and
Nationally Certified Massage
Therapist. Practicing since 1997,
I have worked in a Day Spa setting,
with a Chiropractor, in private
practice and On-Site at Sporting
Events and at the Workplace.*

*Trained in Swedish Massage at the
New England Institute for Massage
Therapy, Certified in Sacred Stone
Therapy, with Advanced Training in
Orthopedic Massage.*

*My work draws from many
modalities and hands on education
taken as I continue to educate
myself so that I can provide
effective therapeutic massage
specific to your needs.*

“

*I believe one massage stroke
with a heated stone is equivalent
to 10 strokes by hand.”*

~Calabria Kane

*The Stones used are purified
every day and allowed to rest in
the sun and moon light,
becoming revitalized in the fresh
air and New England elements.*

*These metamorphic stones are
more than 300 million years old and
have been lovingly harvested.*

HEATED STONE MASSAGE

UNFURL WITH HEATED STONE MASSAGE

The warmth of the sea stones deeply penetrate muscle layers, gliding along and ironing out tightness and tension. Sounds of the stones gently clicking as if the waves wrestled the stones upon the shoreline, ... and just when you think it is over, the stones remain - resting upon your spine, curiously nestled, gently heating and so very deeply relaxing for the whole of you! Guaranteed to knock any signs of stress far out to sea.

STONE Sampler \$105.00
- a 80 minute therapeutic
massage that includes using
the heated stones ONLY on
the back.

STONE Indulgence \$125.00
- 100 minute (over 1 1/2 hour)
massage which includes both
the use of the hands and the
stones for this full body, deeply
sedative, detoxing treatment.

The Benefits of HEATED STONE MASSAGE

- Detoxifying
- Extremely Relaxing
- Accelerates Healing Process
- Emit a Contagious Peacefulness
- Absorb Negative Energy
- Foster a Greater Awareness
- Heat Deeply Penetrates Muscular Tissues

These New England ocean stones are more porous than basalt stones, having the ability to absorb negative energy more readily and are extremely healing.

High in iron, ore and metallic properties, they act as magnets - drawing out repressed emotion and deep sorrow.

They harbor the energy of the oceanic salt which is purifying to the body and electromagnetic energy field.
